

Professor Robert Kołos

Professor Robert Kołos leads the Astrochemistry Group at the Institute of Physical Chemistry, Polish Academy of Sciences (Warsaw). After graduating from the University of Warsaw (Faculty of Chemistry, 1981), he joined the IPC PAS, where his research interests focused on the spectroscopy of small molecules and the chemistry of the interstellar medium. His career includes authoring over 100 scientific publications and collaboration with researchers from the Institut des Sciences Moléculaires d'Orsay, Ecole Nationale Supérieure de Chimie de Rennes, Uniwersytet Mikołaja Kopernika, Technische Universität München, Université Aix-Marseille, ETH Zürich, and Université Paris-Est. Beyond his research, he heads the doctoral school at the IPC PAS.
